Canadian Tire Jumpstart Charities Vision and Core Purpose

The vision of Canadian Tire Jumpstart Charities ("**Jumpstart**") is: Canada, where all kids have a chance to fulfill their dreams. Jumpstart's core purpose is to enrich the lives of kids in financial need through sports and physical activity.

About Jumpstart

Jumpstart is a registered charity that helps kids from financially disadvantaged families participate in organized sports and physical activity. National in scope, but local in its focus, Jumpstart delivers support to children and youth through a Canada-wide network of Chapters and Community Partners. Jumpstart was formed in 2005 and continues to address the ongoing need in our communities to make physical activity more accessible in the lives of Canadian children from financially disadvantaged families. We understand the important life benefits that participation in sports and physical activity can have on the life of a child. Research has proven that participation in sports and physical activity increases a child's chance of overall success through:

- A healthier lifestyle;
- Developing life skills, such as increased self-esteem, confidence, teamwork and leadership; and
- Improved school performance and future educational expectations.

Jumpstart supports programs which are delivered through Service Organizations and coordinated through a network of Community Partners who have the ability and authority to identify a child in need.

Jumpstart Application – How the Funding Process Works

The Jumpstart Application is an application that a Parent/Guardian can use to submit a request for funding to Jumpstart on behalf of their child/children. The following is a list of participants as they relate to the Jumpstart Application:

Parents/Guardians: Parents/Guardians are able to submit an online application through the Jumpstart Online Community Centre ("**JOCC**") for funding on behalf of their child/children; or via paper through one of our registered Community Partners.

Community Partners: Jumpstart supports programs that are delivered through a network of Registered Approved Community Partners ("**Community Partners**"), each of which operate within a designated community. The Community Partner voluntarily assigned in your chapter is the first point of verification and adjudication for each application for funding. The Community Partner will act as a liaison between the Parent/Guardian,

Jumpstart and the Service Organization (as defined below). If at any point the Parent/Guardian completing the request for funding for their child/children have questions they will be directed to contact the Community Partner representative in their community. No child shall receive support through the Community Partner if they are related to the staff of the Community Partner without the advance written authorization by Jumpstart.

In support of the application process for child funding through Jumpstart, the Community Partner will:

- Assess the financial need of a child/children through a means test;
- Comply with specified terms and conditions as agreed to between Jumpstart and the Community Partner; and
- Provide the first level of approval of requests for funding in accordance with the specified terms and conditions.

Jumpstart: Following review of the application for funding by the Community Partner, a subset of the application data will be submitted to a Jumpstart Regional Manager for review, verification and adjudication. If an application for funding is approved, the approved funding amount will be delivered by Jumpstart to the Service Organization (as defined below).

Service Organization/Payee: The “**Service Organization**”, or “**Payee**”, is the registered business, non-profit or charitable organization running the sport or physical activity program. If your child/children’s application for funding is approved, the Service Organization will receive the funds directly from Jumpstart, and apply such funds toward your child/children’s participation in a program run by the Service Organization. Jumpstart does not provide funding directly to: Parents/Guardians, relatives, or any other private or non-registered businesses, non-profits or charitable organizations.
