IMPORTANT CONDITIONS

SECTION 2

1. Liability and Safety

- a) The tenant is required to engage a professional installer who is experienced in the installation of satellite dishes.
b) Installers should be aware of safety items related to installation such as: Working at heights, Ensuring proper anchorage of the dish, Ensuring installation does not conflict with other installations, in particular power lines

2. Satellite Dish Location and Installation

- a) Wherever possible the dish should be installed on the rear of the unit.
b) The smallest dish size which can receive the proper signals should be used.
c) The dish may be installed on the following surfaces: wood siding, brick (which is in good condition), pole or railing.
d) Dishes may not be installed on the roof surface.
e) Cable penetrations shall be in accordance with good building practice.
f) The dish shall be removed by the tenant when unit is vacated. If not removed, a minimum \$50.00 charge will be levied and deducted from security deposit.

3. Damage or Removal

- a) If the dish has to be temporarily removed to allow for maintenance, the tenant shall be responsible for any costs associated with removal and replacement.
b) If the dish causes any damage, the tenant will be responsible as outlined in their lease agreement.

TENANT DECLARATION

SECTION 3

I have read and understand the conditions noted above for the installation of a satellite dish and further agree to adhere to all conditions.

Signature of Tenant

Date (yyyy-mm-dd)
