CITY INITIATIVES

St. John's Strategic Plan 2015 – 2018

Council has approved and adopted a four-year strategic plan for the City of St. John's. The plan sets the vision for St. John's, values which define our intention (Continue to Do Things Better; Be Innovative; Create a Positive Environment; Be Respectful; and Take Ownership) and six strategic directions which provide focus in the development and delivery of programs and services:

- **Neighbourhoods Build Our City** – “Smaller communities” within the City are becoming the core building blocks for city programs, services and policies.
- **A Culture of Cooperation** – Increasingly cooperative and collaborative interrelationships amongst municipalities, the not-for-profit and the private sectors will become crucial to supporting our sustainable capital city.
- **A City for All Seasons** – There are opportunities to make St. John's a year-round, livable and active city.
- **Responsive and Progressive** – Being responsive and progressive means the City is supportive of being flexible and solutions-focused with new approaches.
- **Fiscally Responsible** – City investments must be made based on sound review and analysis.
- **Effective Organization** – Guided by our values, we will support a positive, productive, knowledgeable and engaged workforce that understands the importance of what it means to be citizen-focused.
